

24 Karat Chocolate Teasers

Most people are familiar with the concept of 24 Karat gold as being the purest and most valuable form of gold. Most, however do not realize that originally the karat system was applied to salt and referred to its purity. In ancient times salt was a medium for trade, a catalyst for wars, and a form of currency. There was 5 Karat salt, 10 Karat salt and so on depending on the amount of dirt or "dross" it contained. The 24 Karat salt was the most pure, prized and valuable.

You can buy chocolate flavored products today that contain little or even no Theobroma Cacao at all. Chocolate has received a bad rap, when in reality it is not the chocolate, rather it is the "dross" or non pure chocolate that is the problem. What is the dross in chocolate? It is the refined sugars, fats, waxes, hormone treated dairy and other non-natural additives that make up the bulk of the chocolate products on the market that are responsible for the anti chocolate attitudes of health conscious consumers and health practitioners. ForeverGreen now offers a line of 24 Karat Chocolate!

100% Certified Organic Good for you, Guilt Free, Chocolate!

Teasers are a tasty, pure dark Chocolate enhanced with pharmacist formulated targeted nutritional support for today's health conscious consumers in a unique sublingual delivery system.
